### ADOPT NEW RULES FOR FORT "C. T. A."

Retests to be Made on High Tests to Assure Accuracy in Marks.

A year ago the members of the Fort Atkinson Cow Testing Association decided to make their records more valuable to themselves and to insure greater accuracy they adopted a set of new rules whereby any cow having been fresh more than 45 days that produced more than 2 lbs. of fat on a 25 lbs. of milk or 3 times a day milking should require the tester to remain and conduct another test on the entire herd during the following 21 hours also that any herd average of more than 45 lbs. of fat per cow for a month should be verified by another test to follow immediately. Also that a member shall not be allowed to retest a cow at any time for any reason. That the costs of all retests be paid for by the member requiring them on the same basis as he pays for his regular monthly test.

After having these rules in force for a year the members met in session at a business meeting and voted to not only retain the rules but to still further increase their dependability by adding another one to the effect that any automatically failing cow be any cow produces more than 2 lbs. of butterfat daily regardless of the length of time from freshening or the number of milkings per day. That retests be charged and paid for at the rate of \$3 per day. That all cows belonging to a member, that are milked once or more times daily must be entered in the association herd books and continued there the entire year as long as they are the property of said member.

In order to allow the tester time to count the required retests, to have Sundays free and to continue the publicly work, the members decided to limit the membership to 25 regular testing days a month. This makes the rate of payments in the Fort Atkinson C. T. A. \$50 a year for singles and \$60 a year for doubles.

The matter of marking and designating grade cows in such a way as to render substitution impossible and to avoid possibility of error when a change of milkers occurs was discussed and finally left in the hands of the tester and president for investigation. They will report the results of their findings at a future meeting and the membership will then take such action as they deem advisable.

Monthly social affairs, each under the management of a different committee, have been in progress all winter. November was a program and dance at Fort Atkinson, December, a Dairymen's Conference at Jefferson, January a program and dance, at Whitewater, February a Minstrel Show and dance at Fort Atkinson and for March the women of the association will serve their families a supper at the home of the president, Henry Lull, Wood Lawn Farm, near Fort Atkinson.

Recently the members of the F. A. C. T. A. held a special assessment on themselves and with the proceeds so obtained purchased a typewriter and presented the tester with it at the close of the minstrel show program as a token of their appreciation and regard.

During the month of February the milk was tested on 244 cows in the Fort Atkinson Cow Testing Association. These cows produced an average in the 28 days of 768 pounds of milk testing 2.6% and containing 29% lbs. of butterfat valued at \$18.21 for each cow in milk. The feed costs for all the cows in the association including 42 test cows, was \$1,333.33 for roughage, \$2.33 for grain, total \$7.71, leaving a value above cost of feed of \$8.49 for each cow. They received an average of 26 lbs. of milk apiece. Does it pay to feed grain now? These figures look as though it does, even at present prices.

In February 1922 the value over cost of feed for each cow in this association was only \$4.33. Feed prices are practically the same, but at the present writing is 19 cents a pound higher and the outlook for a profitable season for dairymen is much brighter.

For the third consecutive month high herd and second high herd averages were won by Charles Shuman and Royal Songbusch. Of the 21 herds tested 8 have averages of more than 50 lbs. of fat for the month for each cow as follows:

Owner	No. of cows	Milk Fat
Charles Shuman	29	41.1
Royal Songbusch	15	40.9
John Pester	27	37.3
Clarence Pester	16	36.2
Walter L. Cooper	24	35.7
Edman	16	35.3
Will Huppert	15	34.2
Aaron Heiler	17	33.5

• Average of three tests used for Songbusch.

We now have 45 cows on our Quality List that have produced more than 500 lbs. of butterfat in ten months, and our herd roll for February includes 62 that have produced more than 40 lbs. of fat in the 28 days. During the month 28 cows freshened. I was sold for beef, 3 for dairy purposes and 2 were purchased. New buyers and purchases account for the fact that our bovine membership is larger now than it was last June, and we expect the additions to be still greater," reports Clarence Bragg, tester.

**Laxatives Replaced By the Use of Nujol**

Nujol is a lubricant—not a medicine or laxative—so cannot gripe. When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus secures regular bowel movements by Nature's own method—lubrication. Try it today.

**NEW PRINCIPALS IN MANY SCHOOLS**

Several Changes in Grade Schools' Personnel Made by Holt.

Creation of a junior high school and the revision of positions and grades thus necessitated, has made many changes in principals in various schools of the city. In some cases, teachers who had been at the schools for some years were given the principalship in other schools. Others were brought from other schools while one school, the Lincoln, was abolished when the two upper grades were taken from it, and is now used entirely as a vocational school.

At the Adams school, Miss Rose Gagan is now principal, having been transferred from the Garfield school. Miss E. May Clark, who was principal at the Lincoln school, is now principal of the Adams school, while Miss Hazel Wiley has been promoted to the junior high.

Grant school is at present without a principal, Miss Catherine Creighton, the former one, having gone to the junior high, Jackson, with Miss Elizabeth Miller. The Webster with Miss Janet Cody, the Webster with Miss Kate Nelson, are all the same. Miss Lucy Whitmore, former principal of the "Redeemed" Lincoln school, has assumed charge of the Washington, allowing Miss Isabel Madden to go to the new building to have junior high classes.

**OVERCROWDING IS REDUCED**

There have been other changes besides these in the principalships. Mrs. Ruth Larson, formerly at the Lincoln, has gone to the Garfield, while Mrs. Adams, Miss Ellen Larson, has been transferred to the Washington, and Mrs. C. T. Daniels to the junior high. Misses Ruth Jones and Florence Johnson have left the Jefferson school for the high school, while the only change other than transference, occurred at the Adams, where Mrs. Sylvia Church resigned to go to Madison, where her husband is employed.

Gradual changes are being made to allow more space at the grades which until now have been overcrowded. While it is not possible to add more teachers, and thus use the rooms left vacant when the 8A and seventh grades left all the buildings, gradual changes have decreased the over-crowded conditions.

### USES MOONSHINE AS RUB FOR BABY

Gallachis, Arrested After Raid, Gives Court New Answer.

Frank Gallachis, 508 South Walnut street, has found a new use for moonshine—If any use for it has ever existed.

"We use it to rub on the baby," Gallachis told Judge H. L. Maxfield in municipal court Tuesday afternoon, when called upon to explain the presence of a gallon of "moonshine" distributed among several jugs and bottles in a bedroom of his home. His was distinctly a new answer to the conventional question of "What have you got it for?"

That the court didn't take much stock in Gallachis' tale was indicated when he sentenced him to six months in jail after he could not post a fine of \$100 and costs. The charge was possession of liquor, to which he pleaded guilty.

Gallachis' home was raided, the liquor confiscated and he was in jail within an hour, rivaling former speed records in booze cases. Chief of Police Charles Newman's "sponge" squad, making its second raid of the week, found four one-gallon jugs in the house, one of which contained moonshine. The rest was found in pint bottles.

### 83 Measles Cases Here in February

Ninety-nine cases of contagious disease for February are listed in the monthly report of Dr. Fred L. Welch, city health officer. 83 of them being measles cases. Others were: Scarlat fever, 2; chicken pox, 7; and diphtheria, 1. Dr. Welch considers this time in season for communicable diseases.

He lists other work for the month as follows:

Complaints investigated, 29; inspections, 11; fumigation and disinfection of homes, 7; fumigation for release from quarantine, 2; examinations at office, 8; placards removed, 5; interviews on health work, 93; throat cultures, 3; permits, 4; cases examined with physical, 2; check-up on quarantine, 1; letters, 8; and notices, 17.

### War Hero Rescues Eight from Fire

New York.—Patrolman John Dale, a World war hero, rescued six children and two women from a burning tenement in Brooklyn Tuesday.

He made three trips from the building, the last time throwing his coat over his head and crawling along the floor of the third story to reach a helpless woman.

Dale was a member of the 155th infantry, the old "fighting fifth" during the war. He captured a German machine gun at Chateau Thierry and received the Croix de Guerre. In capturing the gun he was wounded 11 times.

### QUEEN UNDERGOES SERIOUS OPERATION

Copenhagen.—Queen Alexandra has undergone a rather serious abdominal operation, which proved successful, says an official bulletin. The patient's condition, it is added, is satisfactory in view of the circumstances.

Don't miss her, "The Girl of Ghost Mountain!"

### 9 Speeders Have Cars Impounded

Cleveland, O.—Nine motorists, found guilty of speeding and given workhouse sentences in Municipal Judge Sibley's court Tuesday, accepted the court's alternative of having their automobiles impounded.

### HOUSING DEMAND ON INCREASE HERE

Less Than Dozen Modern Homes Available for Renting.

Janesville's list of modern homes available for renting is vast dwindling, real estate men said Monday. One man declared there were but two or three, left, another thought six and another less than a dozen.

With families coming to Janesville every day, real estate men see a housing shortage imminent, with the possibility that the only temporary solution will be with present stock of houses. A modern house is described by real estate men as one having a furnace, gas and electricity and modern toilet facilities.

The demand for houses is increasing each week and real estate men having a hard time finding suitable homes for the new Janesville residents. There are some houses available which are not modern but most people are unwilling to rent homes at the cheapest rent possible.

**Few Buildings to Rent.**

It is pointed out by real estate men that few houses are being built to rent because with present costs a modern home cannot be built for less than \$5,000, they say, which in order that the owner realizes 3 percent on his investment cannot be rented for less than \$20 a month.

This is explained is higher than the average person can afford, figuring one-quarter of his salary goes for rent. The situation is therefore one where a gap exists between the price which an owner can afford to rent a home for and what the average person can afford to pay.

Real estate men therefore see a need for a new type of small bungalow which can be rented for from \$25 to \$30 a month.

No Increase in Rents.

Rents have not gone up according to real estate men, the people apparently having heeded the warning of the Chevrolet officials that gouging of the public will lead to holding up General Motors plans for development here.

L. J. Stewart has leased the Harold Schwartz home on South Third street. Mr. Stewart comes here as assistant to Thomas E. Houghton, Chevrolet plant manager. Victor Nelson, Chicago, has taken the Jungblut house on Fremont street and A. Z. Lloyd, Chicago, a Sadler Moshier house on South Second street. Both men are with the Chevrolet.

A. E. Poplin, who comes here with the Chevrolet, has rented a house on South Second street. Arthur Travis, formerly of Dixon, Ill. now with the Chevrolet, has taken a house on the same street, according to the Taylor-Kamps Land company.

### NAVY RECRUITING STATION OPENS HERE

Thomas J. Elder, chief machinist's mate, and W. H. Stuenkel, chief gunner's mate, both of the United States navy, have arrived in Janesville to open a permanent recruiting station on the second floor of the postoffice building.

### CHEVROLET CLUB BUYS RADIO SET

## LA FOLLETTE UPHELD BY SENATE FOR HIS WAR RECORD

(Continued from page one)

Chasman, Garry, Leck, Hirsch, Huber, Johnson, Kemp, Polawski, Quick, Ridgway, Schumann, Severn, Staudenmayer, Tensdale, Tibbs, Against adoption—Bentley, Burke, Clark, Czaykowski, Kuckuk, Lange, Morris, Roethe, Skogmo, Smith, Werden, White.

The resolution now goes to the assembly where adoption is expected without serious opposition. When that is done the legislature will have condemned the university professors who opposed the LaFollette stand in the war.

**Huber in Defense**  
The war record of Senator Robert M. LaFollette was vigorously defended in the Wisconsin senate today by Senator Henry A. Huber, former secretary to the senior Wisconsin senator, when his resolution condemning faculty members of the University of Wisconsin, who five years ago signed a round robin denouncing the attitude of LaFollette, came before the upper house of the legislature for action.

Senator Huber first read into the record a letter from Senator LaFollette urging him to withdraw his original resolution calling for a conference to destroy the university document now on file with the historical library.

I deeply appreciate the spirit which prompted you to introduce this resolution and the desire on your part to rectify insofar as possible what has seemed to you to be an unfair and libelous attack upon me," Senator LaFollette said. "Time is the great sifter and winner of truth. The formal destruction of that document cannot change the fact of its existence."

**Proud of "War Record"**  
"I stated many times from the public platform in Wisconsin during the recent campaign that I would not exchange my record on the war with any man in the United States senate. History alone can judge impartially. So far as I am personally concerned, I am well content that this document shall remain as a physical evidence of the hysteria attendant upon the war."

"It seems to me," he continued, "that our energies should be devoted toward bringing our institutions back to the principles upon which they were founded and which are the true source of our greatness. This applies with special significance to the university and we can perform no greater service toward all our institutions than to see to it that our energies should be devoted toward bringing our institutions back to the principles upon which they were founded and which are the true source of our greatness."

May Meet Friday—Friday afternoon is the regular meeting time for the board of directors of the Janesville public library. The February meeting was cancelled because of the failure to obtain a quorum.

By BILLY WINNER

If I Were a Roomer—  
MAYBE you think a room to live in isn't much to do with making money. I've found it has a whole lot to do with it. Can you imagine a man living in a small, dark, uncomfortable room, sleeping on a lumpy bed, getting up in the morning to bathe in a cracked wash bowl, and then going to work in a happy frame of mind?

Not for me! I want a cheery, homely room that I'll be glad to go to after a hard day at the office. A room where I can study and read. A room where I can live.

I'd get such a room with the help of Janesville Gazette Want Ads. In the "Wanted to Rent" column, I'd let my Want Ad describe the kind of room I'd be looking for. And I'd get it, too, in a hurry.

brought in with some cousins and sisters who called the country "common" and considered the only scenery lay in Switzerland and the only excitement in the theatre. They appreciated doubly Paris's appreciation and her whimsical twist of mind.

They arrived after dusk at the "farmhouse"—whose ancient kitchen had been turned into a living room, and was filled with oak beams black from age, against which brass and silver plates and candlesticks gleamed in the light.

"The best part of the place is the music room," Mrs. Clarke said, leading the way to a room with a vaulted roof and tapestry lined walls. A modern grand piano stood in a corner, deep cushioned chairs and ottoman benches with red velvet upholstered pillows stood around the wall.

"This is real Tudor," Mrs. Clarke went on. "It's the only part of a house of the Elizabethan period left—built about 1600. Some of the stones of the ruin went into the farmhouse walls, this was used to

"All the world is filled either with people who love old things, or with

ple who hate them and I prefer new—and I like only the first sort." Pan observed touching a bit of old tansy gently with her fingers.

"I like them," said her family some time. Ned said suddenly, "We've a whole Tudor house which was locked so many years no one could get along to throw out the old furniture."

"Yes, he has the ruined arch of an old obelisk in the garden," Mr. Clarke's agent told—

"That's ago for that."

"To be sure it was like fairyland," she said. "They died late from a heavy old oak table that once was in a monastery, attended by the smartest of boys and the most beautiful of maids. Frankie was taken to bed by a girl with apple red cheeks who might have stepped from the rustic chorus of an operetta. At bedtime she was told to get up and she could help her. The apple cheeks maid was apparently to be Frankie's nurse during the visit. There was a cook and a scullery maid and a footman. The house was so lovely this delightful place they referred to modestly as the farmhouse."

It was so like Mrs. Clarke—to

"You know, I was just thinking that about you," he answered impulsively. "Aunt's been telling me a little about you—I thought you were marvelous enough to stay here alone with Frankie—aren't you lonely?"

"No, I'm not lonely," she answered.

And she knew she was lonely for him.

# New Suits, Coats and Wraps

Presenting the Very Newest Modes for Spring and Summer 1923

Whatever is new—Whatever is authoritative as to style—Whatever is distinctive—will be found here. Hundreds of beautiful garments to select from. Spring is always looked forward to with great expectations. First, because it brings wonderful weather, then again, with Easter just a few weeks away, you can wear your spring suit or wrap early and get more stylish wear out of it. No description or illustration can do justice to the wonderful fabrics, shades and styles. They have to be seen to be appreciated.

## A Remarkable Showing of New Spring Suits

Fashion has decreed the Suit as the thing for Spring. And following her dictates, we have assembled a collection of the new modes that truly establishes The Big Store—as the Store for Suits. Nowhere will you find a more pleasing or comprehensive array than which awaits your choosing.

Every new fabric, color and style for every taste and fancy is here for your selection.

The materials so much in favor are Trico-Sham and Tricotine, in the two-piece and three-piece styles. The three-piece are shown with over-blouse waist and dress effect; colors are brown, tan, stone grey and navy.

## Beautiful Sport Suits

in Camel's Hair. Colors: natural and grey, also a wonderful line of mixtures in greys and tans, also invisible checks and decided plaids. Our collection is now complete and moderately priced.

Every Woman, every Miss, will want one of these suits this season, they're so novel, new, comfortable and smart in style—all sizes are here.

We are showing a splendid variety of Strook's 100 per cent pure Camel's Hair Coats; ask to see these beautiful models.

Imported Scotch Mixture Coats in all the latest models; colors are tan, grey, green, brown and blue.

## Wonderful Showing of the New Spring Coats, Wraps and Capes

To all who are thinking of a new spring wrap or cape our display will present opportunities of striking interest—Made of the following materials: Velverette, Ormandale, Brytonia, Gerona, Marvella, Panvelaine, Veldyne, Fashona, Bolivia, Twillcord, etc.—beautifully trimmed in contrasting colors, braid stitching and all-over braiding—some are fur trimmed, also handsome brocaded crepes, wrap and cape style.

## The New Mannish Sport Coats

For durability, serviceability, style and quality, the new Sport Coats occupy a conspicuous place in Spring's wardrobe. They are cut with the easy swinging grace, and are made of rich fabrics that add greatly to their charm—they are tailored with utmost care.

We show a beautiful variety in 100 per cent Camel's Hair Cloth Coats, also Camelain, Over-Plaids, Basingstok, Cam-elette, Polaire and Shagar.

Misses, Junior and Children's Coats in all the new Spring styles and materials.

You'll find individuality stamped on every garment in our wonderful collection, and our moderate prices make this the logical place to buy.

## NEXT WINTER TO BE MILD, SAYS MEAD

Will be Good Winter for Building, Warner Than 1921:

Based on calculations upon the latest information procurable from the government, L. C. Mead, weather wizard, writes from Tampa, Fla., that the winter of the first months of 1923 will be milder than that of 1921, he says:

"Just received today (Mar. 2) from Washington, D. C., the astronomical calculations of the moon phases of 1923, and will say that the winter of 1923 may even beat the mild winter of 1921 when the river opened up the middle of January and was open all through February. With a milder December, 1922, it could easily beat that winter."

"It will be a good winter for building if Janesville is going to have a building boom. The masons will be able to work most of the time, thus keeping ahead of the carpenters with their work."

**Predicted Cold Arrives.**  
"If there is a mild spell for a while in March, (1923) do not think that summer has come altogether, for the mercury is liable to take a tumble the 5th, 6th or 7th, and there is lots of time yet for a good many cold days before the middle of April." (Editor's note.—The temperature at Janesville March 6, was 10 degrees above at 5 a. m.)

"Am sending you the moon's phases for January and February for 1923. While they were sent to me in eastern standard time, I will give them to you in central standard time."

**January, 1923.**—New moon, 6th at 7 a. m.; first quarter, 13th at 5 p. m.; full moon, 21st at 7 p. m.; last quarter, 29th at 12 midnight.

**February, 1923.**—New moon, 4th, 7:38 p. m.; first quarter, 12th, 2 p. m.; full moon, 20th, 10 a. m.; last quarter, 27th, 7 a. m.

**His Mail at Tampa.**  
"In setting the date for that snow and cold that came at Janesville during last February, which was written in October, I used my January winter solstice record, but as January turned out mild as expected, I used my autumn record in setting the dates in my forecast printed in the Tampa paper. When the warm like autumn, it takes a few days longer than when it is real winter solstice. While in autumn records showed me the blizzard and right dates, it took my January record to show the severity of the cold wave."

Commenting on the fulfillment of his prediction that Feb. 23 would see a warm wave at Tampa, Fla., where he is now located, Mr. Mead says that the mercury went to 32 degrees and lacked only three degrees of the highest record for the previous 32 years.

## HOW TO LIVE, NOT MAKING LIVING, IS MODERN SCHOOL AIM

"It was the best program I ever heard of at an affair attended by so many people," said Supt. F. O. Holt in commenting on the annual convention of the national department of superintendence and a large number of side conferences at Cleveland last week. Mr. Holt and his brother, Fred, Edgerton, attended practically all the sessions.

"There were many men present of national and international importance. One of the most inspiring things about the whole conference were the discussions by men prominent in the field of business who seemed to point out that it is desirable to educate people today particularly in how to live rather than how to make a living. Employers of labor who had made a study of the problem insisted that the public schools have a large responsibility in teaching people how to spend their leisure time, and they realized what a big factor this is."

"As expressed at the convention, the general opinion seems to be getting away from the thought that the schools are to teach children a vocation and fit them, how to make money, and is coming closer to the thought that people when young must be taught the value of music and art in connection with vocational matters, to secure the greatest good from life."

## NO REST FOR THE WEARY

## CONSTANTLY SEEK JESUS, IS PLEA OF ST. PAUL'S PASTOR

(The fifth of Lenten sermon series by Janesville pastors.)

BY E. A. L. TREE  
Pastor, St. Paul's Lutheran Church.

"Whom seek ye?"

With this question Jesus in the garden of Gethsemane met the band of soldiers and servants that had been sent by the Pharisees and high priests to capture him. The Pharisees sought Jesus because they hated him. They would put him to death. His claim, based on the prophecies of the word of God, and on his own miracles, that he is the Son of God and the Savior of the world, was gall and wormwood to them. And their henchmen, the soldiers and servants, adopted their masters' opinion concerning this lowly "Jesus of Nazareth" without question, thinking it the sport to aid in putting this "dangerous" man out of the way.

Even so in our day many who stand in high places of influence, not only in secular callings, but even in the pulpit, seek Jesus for the purpose of destroying faith in him, because his gospel, that he offers salvation to all who believe him to be the incarnate Son of God and the Savior of man, is offensive to their Thaumaturgy. They hate him and his gospel. And only too many men and women accept their false verdict, given in pulpit and press, as the gospel truth without question, so that they floundering their unbelief in the

face of the followers of Christ.

"Whom seek ye?" Judas also, which betrayed him, stood with them. Judas had sought Jesus for earthly gain. Judas was greedy. He wanted money. And he thought that now was a good opportunity for getting it by betraying Jesus. So he sought and sold him for 30 pieces of silver. But he lost his soul.

Likewise many today seek Jesus, because they expect material advantages from their connection with him. Some people go to church because they hope to be entertained. They do not want Jesus. They want pleasure, fun. Others join a congregation because their association with its members may get them more customers and business. They do not want Jesus, but they hope to get the dollar through him.

"Whom seek ye?" "Do you seek Jesus?" "Why do you seek him?" "Do you seek the thought that you are in need of a Savior from your sin?" "Do you believe you are in yourself righteous enough to stand before the Holy God on your own merits?" "Then you are like the sinking man who tries to pull himself out of the mire by his own hair."

"Then you have taken the attitude of the Pharisees and all the self-righteous." "Then if you seek Jesus at all, it can be only as his enemy." "But you will harm only yourself for there is no salvation in any other, neither is there any other name given among men whereby we must be saved." But the name of Jesus, the incarnate Son of God.

"Whom seek ye?" "Do you seek Jesus for earthly gain?" Know that he himself says: "My kingdom is not of this world." If you seek the gratification of your flesh and earthly felicity in the fellowship of Jesus, you will be disappointed. You may get your 30 pieces of silver, but you will lose your soul.

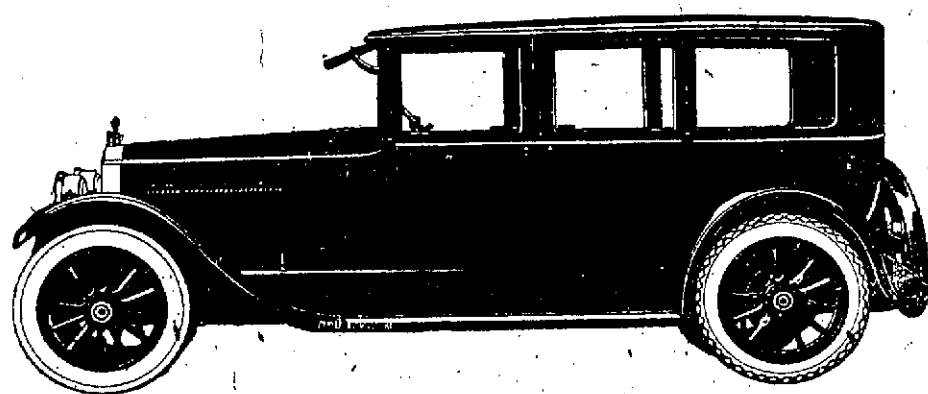

"Whom seek ye?" Seek Jesus as your SAVIOR. If you would be freed from the guilt, punishment, and dominion of sin; if you would have comfort, peace, true and everlasting happiness; if you would have life or death and heaven for hell, then seek him, who invites you: "Come, unto me, all ye that labor and are heavily laden, and I will give you rest." He assures you: "None that seek me early, shall find me." Seek him, then, in true faith. Seek him in his word of which he says: "Search the Scriptures, for in them ye think ye have eternal life, and they are they which testify of ME." Seek him not only during Lent, but EARLY, all the days of your life, and he will not have died for you in vain.

The grace of line, and the beauty, of the Single-Six, are literally delightful. These qualities are illustrated strikingly by the Sedan Limousine.

Above all else, the Packard Single-Six, is a sound investment. It is a better investment for the average car owner, because it affords all the desired features of fine car performance, at an exceptionally low operating and maintenance cost; while its far longer life means a substantial saving in the long run.

## Perry Tightens Home Brew Lid

(BY ASSOCIATED PRESS.)

Milwaukee.—The ghost of home brew prosecutions, which disappeared from Milwaukee more than a year ago, came back Tuesday to haunt dealers in malt and hops.

Charles M. Perry, federal prohibition director, announced, following a communication from Roy A. Jaynes, federal prohibition commissioner, that he would attempt to prosecute persons who sold materials for making beer in the home.

Whether or not prosecutions will be started depends on the attitude of Edward W. Miller, United States district attorney.
